VOLUME XXXVIII. NO. 173 SEYMOUR, INDIANA, WEDNESDAY, JULY 16, 1919. PRICE TWO CENTS.

WORK ON HIGHWAY WILL BEGIN SOON

High Street Road To Be One of the First To Be Improved by Highway Commission.

CONTRACT IS LET TUESDAY

Road Will be Part of Evansville—Cincinnati Main Market Highway and Madison Road.

The dispatch from Indianapolis to The Republican Tuesday, stating that the state highway commission had awarded a contract for the improvement of the High street road to Lawrence Jenkins, of Frankfort, was read with keen interest by good road advocates in this county. It was one of the first contracts to be awarded by the commission in its extensive program of road improvements in Indiana under state and federal aid. Only five contracts were let Tuesday, although estimates had been asked for eight roads. Three of the bids were higher than the engineer's estimate of cost of construction and will be readvertised. The five contracts let were: the Niles road, St. Joseph county, four miles, bid, $37,650.55; National road, Indianapolis to Hendricks county line, 6.11 miles bid, $179,127.90; Louisville road, Jackson county, 2.46 miles, bid, $68,5546.

The estimate on the local road was $28,822.90 a mile or $70,904.35 for the entire distance of 2.46 miles. The successful bidder was approximately $2,350 under the total estimate.

The commission also announced that another Jackson county road is to be improved without delay. It is a section of the Jackson Highway, extending north of Seymour for a distance of 6.30 through Rockford on what is known as the Jonesville road. It is understood that the dangerous crossing at Rockford is to be eliminated when the permanent road is constructed and that the highway will be routed through what is now known as Rapp's lane. Advertisement for bids for this road will be made immediately, it is stated.

Some of the bids rejected Tuesday were refused because the contractors did not believe they could complete the work this year. The commission is determined that the roads contracted for must be completed without delay and with the authority of the highway engineer and the commission, it is believed that there will be no delay on the High street road. The preliminary survey has already been made.

SCHNECK FUNERAL HELD FROM HOME THIS AFTERNOON

Service is Largely Attended by Many Friends of Deceased—Banks Closed During Funeral.

The funeral of Benjamin F. Schneck, prominent manufacturer and business man, who died suddenly at a sanitarium in Marion, Ohio, Monday morning, was held from the family home on South Chestnut street this afternoon at 3:30 o'clock. The service was conducted by Rev. Wm. E. Weiler, pastor of the Trinity Methodist Episcopal church, assisted by Rev. William A. Schruff, of Louisville, a former pastor of the local church, and Rev. J. C. Marting, a representative of the Baldwin-Wallace College, at Berea, O.

The funeral service was largely attended, many friends of the deceased being present to pay their past tribute of respect. The banks of the city closed at 3 o'clock for the remainder of the afternoon in order that the officials and employes could attend the funeral, the deceased having been vice-president of the First National bank and one of the city's best known financiers.

R. E. P. Kline, widely known lecturer and student of economic and social conditions in this country, will deliver a lecture, "The New Competition," at the Seymour Chautauqua tonight. The relations of capital and labor as they affect modern conditions will receive attention in the address tonight. Mr. Kline delivers a lecture that is extremely interesting and full of gripping, intensely human thoughts.

R. E. P. KLINE.

"Community Health" was the subject of an interesting address given this afternoon by Miss Florence Bullard. She is making this tour in chautauqua work with the sanction of the American Red Cross and she explained what that organization accomplished during the war and what its aims are in time of peace. Miss Bullard saw active service in France as a representative of the Red Cross and was awarded the Croix de Guerre with two stars for exceptional bravery under shell fire.

A large audience was delighted Tuesday night with the address of Miss Ada Ward who spoke on the subject "Getting Together." She was a member of the British entertainment bureau which furnished various forms of amusement for the British

OPEN SEASON FOR SQUIRRELS BEGINS FIRST OF AUGUST

Indiana Game Laws Provide That They May be Killed Until the First of December.

The first day of August marks the beginning of the open season when squirrels may be killed. The open season continues from August 1 to December 1.

There have been several inquiries concerning this law and the section relating to squirrels is reprinted as follows:

"Whoever shoots or destroys or pursues for the purpose of shooting or destroying, or has in his possession any wild squirrel, from the first day of December of any year to the first day of August of the succeeding year, shall, on conviction, be fined ten dolars ($10) for each squirrel so shot, destroyed, pursued or had in his possession."

OBJECTION WAGED TO RATE INCREASE

Patrons of Bicknell Telephone Co., Owned by Seymour Capital, Are Ready for Fight.

TELEGRAM SENT TO BURLESON

Citizens Claim that Postmaster—General Denies That Rate Boost Had Been Ordered.

Patrons of the Home Telephone Company at Bicknell which is owned by Seymour capital, strenuously object to the increased rate schedule which is announced as effective today, and claim that they will permit their telephones to be removed before they will pay the higher charges. No objection is made to the present rates, it is stated, but the citizens there feel that the charges now made are sufficient. L. C. Griffitts, president of the Seymour Mutual Telephone Company, is president of the Home Company at Bicknell.

Following the announcement that the rates would be increased, Mr. Griffitts is alleged to have told the Bicknell citizens at a mass meeting that he had authority to increase the rates 130 percent. but that the postmaster-general had finally consented to permit an increase of fifty percent. The citizens there telegraphed to Burleson regarding the increase and it is reported that the postmaster general replied that he had never authorized an increase at Bicknell.

The situation at Bicknell is of local interest not only because the company is owned by Seymour men but also because the situation there is quite similar to conditions here.

A dispatch from Bicknell to the Indianapolis News Tuesday reviews the situation as follows:

A new situation has arisen in the

BRITISH AIRSHIP DESTROYED AT SEA

NS-11 is Blown up During a Flight Over North Sea, The Air Admiralty Reports.

TWELVE BELIEVED LOST

Craft Was Attached to Mine Sweeping Fleet—Leaves Pulham Monday Night.

By United Press

London, July 16—Search was being made today for the crew of the British airship N S 11, which was blown up during a flight over the North sea last night. All were believed to have been lost. There were two officers and ten men aboard.

The airship was attacked to the mine sweeping fleet. Persons living on the Norfolk coast declared they heard a series of explosions and saw burning debris fall into the sea. It is believed the airship either was struck by lightning or developed engine trouble.

The ship left Pulham, where the R-34 and R-33 are stationed, for a sea cruise Monday night. Until the R-34's recent record of 108 hours and ten minutes in the air, on her trans-Atlantic cruise, the N S 11 held the record with 104 hours continuous flight.

SCRATCH ON FINGER CAUSES BLOOD POISON

Fred EuDaly Suffering From Injury Received Over a Week Ago—Is Improving.

Fred EuDaly, who conducts a barber shop on Indianapolis avenue, is confined to his home suffering with blood poisoning in his right hand and arm. Although quite painful Mr. EuDaly is reported to be resting much easier today.

Mr. EuDaly scratched the third finger on his left hand several days ago with a rusty knife. About a week afterwards the finger began to swell and blood poison developed. The finger has been lanced and it is believed that the wound will heal up without much further trouble.

COOL WAVE BROUGHT RELIEF FROM THE SULTRY WEATHER

Lower Temperature Welcomed by Farmers—Warmer Weather Predicted for Tomorrow.

The unexpected but very welcome drop in temperature which came late Tuesday afternoon after a period of sultry heat may not remain many hours, according to the weather bureau. The temperature dropped rapidly after 5 o'clock yesterday afternoon and the night by contrast with the previous evening, was chilly.

Farmers and others who are working in the open are thankful for the cooler weather and are hoping that it will continue for several days. Thrashing crews found their work very trying under the hot sun, especially on the days when there was an absence of all breeze.

STRENUOUS TIME FOR GEN. PERSHING

American Commander-in-Chief Guest of American Luncheon Club in London.

BRITISH OFFICIAL DINNER

Daily Mail Pays Tribute to American Sacrifice in Welcoming Pershing.

By United Press

London, July 16.—General John J. Pershing, as the guest of Great Britain, undertook today to carry out a strenuous program arranged in his honor.

American Ambassador Davis was to present the American commander to a number of distinguished British officials, including Winston Churchill, war secretary; Viscount Peel, under-secretary for war, and Lord Milner, colonial secretary.

Luncheon had been arranged for him by the American luncheon club and in the afternoon he was a guest at the king's garden party. At night he had been invited to attend a British official dinner at the Carlton hotel where the general and his staff are stopping.

Welcoming General Pershing to London the Daily Mail said today:

"We do not forget what we owe the United States, General Pershing and his men. In the dark hours of 1918 when the German legions were driving toward Paris, General Pershing said to Marshal Foch, 'Here are our men, trained and untrained. Take them and use them.' This magnificent gesture of sacrifice restored confidence from that time on.

"At Chateau-Thierry, St. Mihiel and in the Argonne, the Americans played the essential part in the defeat of the enemy. Their fine courage, their splendid comradeship and boundless fresh reserves behind the war worn was a precious asset."

NEW YORK PIERS ARE PLACED UNDER GUARD

Action Taken to Prevent Any Further Demonstrations by Striking Seamen.

By United Press

New York, July 16.—Steamship piers along both river fronts were guarded by additional police today to prevent possible repetition of demonstrations by striking seamen.

About 200 seamen visited the Ward line pier in Brooklyn at midnight and forcibly removed forty members of the crew from a vessel. They were met by a score of policemen and dispersed after night sticks had been freely used.

Earlier in the night nearly 1,000 firemen, oilers and water tenders paraded along South street visiting vessels on which it was reported strike breakers were at work.

Issuance of orders for a general walkout by the Marine Firemen, Water Tenders and Oilers Union has increased the scope of the strike, which it is believed may spread to ocean steamship lines.

Freight was piling up at wharves and railroad terminals with no relief in sight.

Efforts were being made to induce long shoremen to walk out but officials of that union refused to say what action they intend to take.

SOUTHEASTERN EUROPE IS MENACED BY BOLSHEVISM

Final Armed Struggle With Hungarian Reds With Vienna as Objective is Foreseen.

By United Press

Paris, July 16—A final armed struggle between the allies and the Hungarian reds with Vienna as the supreme objective was foreseen today. The allies have reached definite conclusions that central and southeastern Europe is menaced by a wave of bolshevism. It was declared today that unless Vienna can be saved from the bolsheviki and permitted to become the capital of a stable government the peace outlook in Europe will be dubious for years to come.

WILSON TO SPEAK AGAIN TO SENATE

President Will Present Treaty Whereby Great Britain and U. S. Will Protect France.

NEW ISSUES TO BE INJECTED

Executive Continues Plans for Trans-Continental Tour in Interest of The League.

By United Press

Washington, July 16—President Wilson was understood today to have started work drafting the speech he will make to the senate in presenting for ratification the agreement whereby America and Britain are bound to aid France against unprovoked German agresssion.

With senate debate over the peace treaty and the league of nations already hot, the president is making ready to inject into the controversy issues which probably will increase the feverishness of the argument.

Just when he will appear before the senators with the agreement is problematical and it is believed depends largely on the developments in the present debate. At the moment which is considered most opportune for another speech in behalf of the settlement at Paris, the president's friends look for him to go to the capital.

Before starting on his trans-contenental tour the president is expected to have a long conference with secretary Lansing—enroute home from Paris—to learn from him the present feeling in Europe and bring up to date the information he will use in his speeches appealing for support for the covenent and treaty.

An early reply is anticipated from the White House to senator Lodge's resolution asking for the alleged secret treaty between Japan and Germany. Government officials say they have no knowledge of it.

There was much discussion today over whether the president on his tour, would invade Idaho, home state of Senator Borah, chief opponent of the league of nations. It was considered likely Wilson would make a speech, probably at Boise, to explain to Borah's own townspeople and constituents his reasons for urging the United States to join the league.

SENATE MAKES DEMAND FOR GERMAN-CHINESE TREATIES

Pact of 1898 Desired by Committee Before Shantung Provision is Discussed.

By United Press

Washington, July 16—The senate foreign relations committee today voted to ask the state department for copies of all treaties under which Germany acquired rights in China. The treaty of 1898 by which Germany forced China to give up Kiao Chao and part of the Shantung peninsula following the killing of two German missionaries, is particularly wanted by the committee which took the position that it must have this treaty and any other bearing on Shantung before it can act on the Shantung provision of the treaty.

Following this action the committee resumed reading of the treaty. In two days 134 pages have been read. Reservations made today by Senators Moses and Fall include all of part four, covering Morocco, Egypt, Turkey, Bulgaria, China and Shantung.

Moses and Fall declared that in their opinion the provisions of this part of the treaty might involve sending American military forces into these countries to help stabalize conditions. The two senators also reserved the right of future discussion and amendment of clauses fixing Polish and other boundaries by commissions.

OBJECTION WAGED TO RATE INCREASE

(Continued from first page)

fight of citizens of Bicknell against an attempt of the Home Telephone Company to make a 50 per cent. raise in rates. The concern is owned by a Seymour telephone combination, of which L. C. Griffitts is president and a similar raise in rates is being attempted at Seymour.

The citizens' committee received a reply last night to a long telegram sent to Postmaster-General Burleson, in which it was said that an increase in rates for the Home Telephone Company had not been authorized. Griffitts had told the citizens in a mass meeting that Burleson had offered an increase in rates of 130 per cent. on business phones in Bicknell, and that it was only after two days pleading that Burleson consented to a raise of only approximately 50 per cent.

Telephone properties are to be turned back to the owners by the government within sixteen days but the bill provides something to the effect that present rates shall continue for several months. The question of a rate raise, it is pointed out, will have to come before the Indiana public service commission.

Patrons say the telephone service here is very poor and some officials of the company, it is said, admit that such is the case.

Griffitts, however, says that the United States government has ordered the raise and that every telephone not paid for at the advanced rate will be disconnected at noon tomorrow. The citizens are offering to pay the old rate and say they will permit their phones to be taken out before they will submit to a raise.

OBITUARY.

Isaac Fish was born January 9, 1854, near Norman in Owen township where he spent his entire life and died July 5, 1919, aged 65 years, 5 months and 26 days. He was the son of James and Jane Fish. He was married March 4, 1877, to Phoebe Owen. To this union were born two sons and four daughters: Marshall, of Indianapolis; Mrs. Jane McPike, of Seymour; Nannie, of Indianapolis; Mrs. Ida Owen, of Mattoon, Illinois; and Della and Albert at home; all six of whom survive.

He united with the regular Baptist church at Guthrie Creek the fourth Sunday in September, 1879, and lived a faithful and devoted member until death called him home.

"Uncle Ike," as his friends and neighbors usually called him, was much devoted to the doctrines and principles of his church. He was a kind Christian husband and father, manifesting more than a usual interest in his family.

He was an active factor in community life, always ready to promote that which was good for his friends and neighbors, often to the extent of self-sacrifice. In times of sickness and distress in the neighborhood, "Uncle Ike" was always present, ready to lend a helping hand.

Although his health had been failing him the past few years, he was cheerful and continued to manage his business affairs until the last few days. He was very patient in bearing his last illness and knew that his end was near and since he saw that his health would not permit his lending the helping hand that he was accustomed to, he welcomed the summons home.

He leaves a widow, the six children nine grandchildren, three brothers, Jack, of near Norman; Wes and Aylette, both in the West; and a host of other relatives and friends.

The funeral services were held at the Liberty church Sunday at 3 o'clock by Rev. Baldwin, of Columbus, and the remains were laid to rest in the cemetery near by.

WOMEN IN BUSINESS

Woman's power in America is well illustrated by the thousands of women who entered almost every line of business to replace men who were drafted during the war. Health proved their strongest asset. Many women, however, developed weak, nervous conditions and could not stand the strain of a business life. Such women should remember there is one tried and true remedy in Lydia E. Pinkham's Vegetable Compound, which for forty-five years has been restoring health and strength to the women of America.

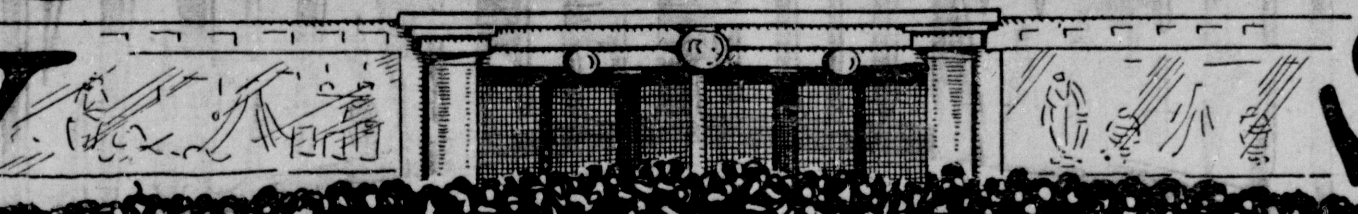
Clearance July Sales



A Clean Sweep Must Be Effected of All Spring Goods
and Big Price Reductions Prevail On All Lines
SALE BEGINS THURSDAY, JULY 17th, at 8:00 A. M.—Come Early

Our Annual July Clearing Sale this year observes the usual custom, but under extraordinary conditions. Just when everyone was expecting lower prices at the close of the war, and especially at the signing of the Armistice for World Peace, comes the unexpected rapid advance in wholesale prices, such as was never thought of during the war.

There will be no check in advances for months to come, yet the foresight of our Big Purchasing Agency, for four large stores, have bought early and heavily, to give you a Real Bargain Sale this July and keep our usual custom of not carrying over any Spring or Summer Garments or Fabrics.

Never were wholesale prices so high on staple merchandise and many commodities are off the market. Yet we are confident you will fully appreciate the importance of this event, and will recognize it as a saving opportunity that makes a most urgent appeal for your attendance. Bring a full purse, as we know you could not ask us for credit at these low prices. Limited quantities to each customer, that all may share in the Real Bargains.

If Lower Prices Mean Anything, All Must Go.

KLINE SCHEDULED TO SPEAK TONIGHT

(Continued from first page)

soldiers. She told of her work among the soldiers and of the splendid spirit which they manifested under the most trying experiences. She said that the artists who gave their time to the entertainment service did much to brighten the lives of the soldiers.

She paid a tribute to the work that was done in America towards winning the war, but declared that the people in this country did not fully appreciate the terribleness of the world conflict. She gave a graphic picture of the German air raids and of the destruction and death caused by the bombs dropped from the planes. She declared that the war had developed a new feeling of friendship among the nations of the world and that it could only result in a new world policy.

The Orchestra Sextette made a decided hit with the audience. The musical company gave two concerts, one in the afternoon and another at night. The Harvesters' company which appeared this afternoon for the first time was greeted with applause.

Mrs. H. V. Evans, who has charge of the season ticket sale, reported today that the sales to date lacked about $250 of being sufficient to meet the expenses of the program. It was announced at the time the campaign opened that the price of the season tickets would be advanced to $3 as soon as the chautauqua opened. However, the management of the bureau is very anxious to make the assembly a financial success and has agreed to extend the price of $2 each. It is known that many people did not know that the single admission cost would be fifty cents for each number and for this reason they now realize that it is economy to buy a season ticket at the low cost. Tickets will be on sale at the Farmers' Club, Federmann's drug store, First National Bank, People's grocery and at the park. Those desiring to buy may call Mrs. Evans, Main 628 and she will notify the solicitors.

The program is admittedly one of the best that has ever been brought to this city and the management is anxious that as many people as possible take advantage of the talent to come here.

Mr. and Mrs. Edwin Schneck and son, of Detroit, Mich., arrived here this morning to attend the funeral of B. F. Schneck.

ARMISTICE PREVAILS IN DEBATE IN SENATE

Hitchcock to Confer With Wilson to Get Date to Answer League Opponents.

By United Press

Washington, D. C., July 16—An armistice prevailed today in senate debate over the league of nations, while leaders of both sides prepared for resumption of hostilities tomorrow.

Senator Hitchcock, administration leader, who was prevented from seeing president Wilson yesterday by the stormy session on the league, hoped to go to the White House to receive information in refuting arguments of league opponents.

Fifteen republican senators are to be requested immediately to call on the president. It was believed he would take the republicans into his confidence with regard to the proceedings at Paris and thus seek to weaken opposition to the peace treaty and the league of nations in the senate.

Local Fertilizer Company Expanding

The Buhner Fertilizer Co., Seymour, Ind., have just installed a new and up to date Double Mixing Unit, made by the well known Sturtevant Mill Co., of Boston Mass. They are now in a position where they can take care of the rapidly growing fertilizer business to a much greater extent than heretofore. The fertilizer demand in this part of the country having more than doubled in the last two years, made this change necessary, and as their Fertilizer Plant is running in connection with the Abattoir the farmers in this part of the country are sure to get their money's worth, if they buy their fertilizer from the Buhner Fertilizer Co., as practically all the ingredients from the animals fit for available plant food, goes into the fertilizers after they are extracted and separated by the steaming and cooking process in the Abattoir plant, such as blood, bone and animal tankage, which are the best known crop producers of any fertilizers made. Farmers and prospective users of fertilizers are cordially invited to come and see for themselves what they get when they buy fertilizers from The Buhner Fertilizer Co. The plant now has a capacity of turning out 250 to 300 tons per day which assures the consumer prompt delivery. j16d-24w

First "Dust" Explosion.

Until the summer of 1878 such a thing as a "dust explosion" was unknown. No doubt many such explosions had occurred, but they were of small account and no investigation followed to disclose the true nature of the case.

In that summer the Washburn flouring mills at Minneapolis, then the largest in the world, exploded with terrific violence.

Several massive buildings, with granite walls two feet thick and of particularly strong mill construction, were demolished as if by an immense charge of dynamite.

The flame of the first explosion was communicated to two other mills, which were destroyed in the conflagration which followed.

TRADE MARK

Save the Ten Cents.

Beginning June 10, a minimum price of fifteen cents for cash, and an additional ten cents when charged, will be made on all classified locals, cards of thanks, or other short locals. If the local is ordered by telephone the money may be sent to the office the same day, before it is charged on our books, and the extra charge of ten cents will not be made.

We find the cost of charging these small items, making out bills and collecting them often amounts to more than the local itself. The extra ten cents that will be charged will partly compensate the office for this extra work and expense. But you can save it by paying cash when the local is ordered.

Exception will be made in the case of business firms with whom we have regular monthly accounts.

FINE BUSINESS RECORD MADE IN FOUR MONTHS

Ben Snyder Department Store Makes Great Progress And is Building up Large Trade.

The Ben Snyder department store which is located in the Vehslage building on West Second street was established just four months ago this week and during that time it has made remarkable progress and has built up a large trade. The store carries a large line of ladies' and men's ready-to-wear and dry goods and also an assortment of miscellaneous articles. Ben Snyder, of Louisville, is proprietor of the local store. He has been engaged in business in Louisville with remarkable success for several years and has recently purchased a large building which he is practically rebuilding to suit his needs.

Mr. Snyder says that his success in business is due very largely to newspaper advertising. The local store is a consistent advertiser and lets the public know what it has for sale.

Eli Shapero, manager of the local Snyder store, declares that his policy of business is to do a large volume of business and reduce the profit on the individual sales. "We know that we have a fine line of merchandise at very low prices," said Mr. Shapero. "Unless we let the people know what we have and that we can save them money, it would take them a longer time to find it out. Through newspaper advertising we send a regular message to them. Advertising increases the volume of our business and we can therefore sell our goods at a small margin of profit. Our customers are familiar with our policy of business and that they appreciate it is shown by the liberal patronage that we have enjoyed. We strive to please every one who visits our store and we realize that only in this way we can expect to retain our trale."

Plans are now under consideration, Mr. Shapero said, to extend the store room to the alley which would give from twenty to twenty-five feet more floor space. He said that the stock here has been increased to such an extent that the store is already crowded and that arrangements would have to be made to take care of the large lines which have been bought for fall and winter.

CATCHES BIG FISH

Otto Taskey Lands One Weighing 25 Pounds Tuesday Night.

Otto Taskey, a local bricklayer, landed a nice twenty-five pound catfish out of White river near the Bells Ford Bridge Tuesday night. The fish is one of the biggest caught along White river near this city this season. Mr. Taskey also caught some other nice fish Tuesday night.

Fred Bacon, who has been spending a few days here with his parents, left Tuesday night for a several days' business visit in Dallas, Tex.

Miss Grace Butler returned to her home in North Vernon Tuesday afternoon after a short visit with relatives here.

FORD AUTOMOBILE IS DAMAGED IN A COLLISION

Car Driven by Louisville Man Collides With Car Parked at Shields Park Tuesday Night.

A Ford automobile driven by "Bunk" Gordon, of Louisville, was badly damaged Tuesday night when it collided with an automobile parked near the chautauqua tent at Shields park. The radiator was practically demolished and the car was damaged otherwise. It was taken to a local garage for repairs.

According to the driver, he did not see the parked car until too late to prevent the collision. Mr. Gordon was accompanied by Capt. Hershman, also of Louisville, and Eli Shapero, manager of Ben Snyder's store. Capt. Hershman, is one of six brothers who have received considerable publicity throughout the country due to the fact that each enlisted in the army when the United States entered the World war and all were commissioned officers.

BEDFORD EXPECTING BIG INCREASE IN POPULATION

Large Stone Contracts Held by Mills There Causes Big Demand for Imported Labor.

With the resumption of the stone industry at Bedford, that town is expecting a population boom within the next sixty days. An extensive advertising campaign is being waged for workers of all kinds in the city papers and it is expected that between six hundred and one thousand working men will be attracted to the "Stone City."

The Bedford Chamber of Commerce is assuming the task of finding houses for families and room and board for this army of men. The stone mills at Bedford have recently received some big stone contracts and are offering some attractive prices for labor.

Do You Want Your Kidneys Experimented On?

Kidney troubles are getting more common every day. Government health bureau figures say deaths from this cause are 72 per cent. more than 20 years ago.

Anybody who suffers constant backache, who feels blue, nervous and irritable; who has dizzy spells, headache and urinary disorders should suspect kidney weakness. Overworked kidneys must have a rest. Take things easier; live more carefully. Take a good kidney remedy to build the kidneys up again.

But be sure to get Doan's Kidney Pills—the oldest, the most widely used, the best recommended of all kidney pills, now in use all over the civilized world. Don't experiment with your kidneys. Thousands have already tested Doan's. You have their experience to go by. Plenty of cases right here in Seymour. Here's one:

Mrs. H. Moritz, 405 E. Fifth St., says: "I am always glad to recommend Doan's Kidney Pills for I keep them in the house and when I or any other of the family have backache or the kidneys act irregularly, we use Doan's Kidney Pills. They never fail to relieve the trouble and I consider them a good medicine."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Morith had. Foster-Milburn Co., Mfgrs., Buffalo, N. Y.

$225 Cut in Price of Titan 10-20

BEGINNING July 1st, 1919, the 1920 price of the Titan 10-20 kerosene tractor is

$1,000

CASH F. O. B. Factory

$1050 when time is given

Reasonable terms will be given to any man who needs the Titan now and cannot pay cash in full. These terms are new.

WE have reduced the price of the Titan 10-20 from $1,225 to $1,000. This big cut is not justified by present prices of materials and labor, but is made in anticipation that the largely increased volume of business developed will offset the reduction. The Titan now becomes the world's most popular priced 3-plow tractor.

If you have been holding off buying a tractor because $1,000 was your limit for a good 3-plow machine, your price will now buy the best one.

To sell the Titan 10-20 at this low price, not a single necessary feature has been taken off to be bought at extra cost. The Titan comes to you complete. The Harvester Company is too old at the business to offer you a tractor which is not 100% efficient at the drawbar and 100% efficient on the belt.

Remember, the Titan is a 3-plow tractor. Don't confuse it with low-powered 2-plow machines. For a fair comparison as to price, add one-half the cost of any 2-plow tractor to its advertised price, then add the cost of all the extras you must buy, and that will put it on a par with the Titan 3-plow tractor. Then compare values.

In addition, remember the Titan is a genuine kerosene tractor. Gasoline as tractor fuel is unwarranted extravagance. Don't forget that. We give you a written guarantee that the Titan operates efficiently on kerosene.

You can't make a mistake if you select a Titan 10-20 at its present low price. It will give you power satisfaction that will stand by you steadily season after season at drawbar and belt. You may rely on Harvester reputation for good service and fair dealing. Go to your dealer. Arrange for immediate shipment. This price reduction may make delivery difficult later. Place your order now.

These Features, Regular With Titan, Are Charged for Extra by Some Tractor Makers:

Friction Clutch Pulley With the Titan you get a large wide friction clutch pulley, put in the right place by a company that knows where it belongs. It is provided with a safety shield. The belt work season is on. No extra charge for Titan pulley.

Throttle Governor With the Titan you get a throttle governor. It gives you steady speed for t work, saves fuel, prevents grain losses, works automatically and perfectly. No extra charge.

Starting and Service You get the Titan tractor without the compulsory "starting and service charge" made by some companies. Complete instruction in starting and operating is given free. No extra charge.

Drawbar With the Titan you get a convenient drawbar, adjustable side-ways and up-and-down. Fits every need. Compare it with others. No extra charge.

Fenders With the Titan you get drive-wheel fenders. They stand for safety. They also protect the engine and operator from mud and dust. No extra charge.

Platform With the Titan you get a rear platform. You can stand up and run the tractor, put in more hours with less fatigue. No extra charge.

Lighting the Trenches

During the recent war the world came into a full and complete understanding of the value of efficient and comprehensive organization on the part of big business.

One phase of the aid that the Standard Oil Company (Indiana) was able to render is interesting.

The U. S. Government called on the Company for candles, and in an incredibly short space of time the initial shipment was made.

In all, 285,000,000 candles were shipped from Whiting, Indiana, to France—about 85 candles for every man in the United States uniform.

The Standard Oil Company makes candles from the by-products of crude oil.

Besides serving a most useful and necessary purpose in themselves, the manufacture of candles enables the Company to keep down the manufacturing cost of gasoline, so that you may run your car without great expense for fuel.

This is only a single and minor phase of the part played by the Company in helping to win the war, but it serves to illustrate the usefulness of the Company as a public servant, and the benefits accruing to the world at large from Standard Oil Company (Indiana) operations.

CHAPTER IV.

In Which the "King" Dreams a Dream —and Tells Us About It.

The afternoon, under the spell of its various magic, had been passing all too swiftly, and at length I grew reluctantly aware that it was time for me to go. King Alcinous raised his hand with a gesture that could not well be denied. That led me—his invitation being accepted without further parley—to mention the idea I had conceived as I came along, of exploring those curious old ruined buildings.

"Tomorrow," he announced, "tomorrow we shall begin—there is not a moment to lose. We will send Samson with a message to your captain—there is no need for you to go yourself; time is too precious—and in a week, who knows but that Monte Cristo shall seem like a pauper and a penny gaff in comparison with the fantasies of our fearful wealth.

So, for that evening, all was laughingly decided. In a week's time, it was agreed, we should have difficulty in recognizing each other. We should be so disguised in cloth of gold, and so blinding to look upon with rings and ropes of pearls.

When we met at breakfast next morning, glad to see one another again as few people are at breakfast, it was evident that, as far as the "king" was concerned, our dream had lost nothing in the night watches. On the contrary, its wings had grown to an amazing span and iridescence.

Calypso, it transpired, had certain household matters—of which the "king" of course was ever divinely oblivious—that would take her on an errand into the town. Those disposed of, we two eternal children were at liberty to be as foolish as we pleased. The "king" bowed his uncrowned head, as kings, from time immemorial have bowed their diadems before the quiet command of the domesticities; and it was arranged that I should be Calypso's escort on her errand.

So we set forth in the freshness of the morning, and the woods that had been so black and bewildering at my coming opened before us in easy paths, and all that tropical squalor that had been foul with sweat and insects seemed strangely vernal to me, so that I could hardly believe that I had trodden that way before. And for our companion all the way along—or, at least for my other companion—was the Wonder of the World, the beautiful strangeness of living, and that marvel of a man's days upon the earth which lies in not knowing what a day shall bring forth, if only we have a little patience with Time—Time, with those gold keys at his girdle, ready, at any turn of the ways, to unlock the hidden treasure that is to be the meaning of our lives.

How should I try to express what it was to walk by her side, knowing all that we both knew?—knowing, or giddily believing that I knew, how her heart, with every breath she took, vibrated like a living flower, with waves of color, changing from moment to moment like a happy, trembling dawn. To know—yet not to say! Yes! we were both at that divine moment which hangs like a dewdrop in the morning sun—ah! all too ready to fall. Oh! keep it poised, in that miraculous balance, 'twixt time and eternity—for this crystal made of light and dew is the meaning of the life of man and woman upon the earth.

As we came to the borders of the wood near the edge of the little town we called a counsel of two. As the outcome of it we concluded that, having in mind the "king's" ambitious plans for our cloth-of-gold future, and for other obvious reasons, it was better that she went into the town alone—I to await her in the shadow of the mahogany tree.

As she turned to leave me she drew up from her bosom a little bag that hung by a silver chain, and opening it drew out, with a laugh—a golden doubloon!

I sprang toward her; but she was too quick for me, and laughingly vanished through an opening in the trees. I was not to kiss her that day.

Calypso was so long coming back that I began to grow anxious—was, indeed, on the point of going down into the town in search of her, when she suddenly appeared, rather out of breath and evidently a little excited—as though, in fact, she had been running away from something. She caught me by the arm with a laugh.

"Do you want to see your friend Tobias?" she said.

"Tobias? Impossible!"

"Come here," and she led me a yard or two back the way she had come, and then looked through the trees.

"Gone!" she said, "but he was there a minute or two ago—or at least someone that is his photograph—and of course he's there yet, hidden in the brush, and probably got his eyes on us all the time. Did you see that seven-year apple tree move?"

"His favorite tree," I laughed.

"Hardly strong enough to hang him on, though." And I realized that she was King Alcinous' daughter.

We crouched lower for a moment or two but the seven-year apple tree did'nt move again, and we agreed that there was no use in waiting for Tobias to show his hand.

"But what made you think it was Tobias?" I asked, "and how did it all happen?"

"I could hardly fail to recognize him from your flattering description," she answered, "and indeed it all happened rather like another experience of mine. I had gone into Sweeney's store—you remember?—and was just paying my bill."

"In the usual coinage?" I ventured. She gave me a long, whimsical smile—once more her father's daughter.

"That, I'm afraid, was the trouble," she answered; "for as I laid my money down on the counter I suddenly noticed that there was a person at the back of the store,"

"A person?" I interrupted.

ALLEGED CRUELTY TO SOLDIERS IS PROBED

Representative Dallinger Says His Charges Have Been Proved by Testimony.

By United Press

Washington, D. C., July 16.—"The charges brought by me last Saturday of cruelty to American soldiers in France, caught in the web of the Paris-American military police, have been more than proved by testimony of witnesses called by the special committee of the house," Representative Dallinger, Massachusetts, said today.

Several former soldiers who had been confined in prison camps near Paris and in what was called the "bastile" in Paris, told the committee about instances of cruel treatment.

That the striking of prisoners by sergeants was not uncommon was the assertion of Paul Boggs, 412th telegraph battalion, who declared he had seen as many as fifty men beaten during his eleven days at prison camp number two near Paris.

One soldier died of wounds because of the abuse he received.

The men were deprived of all tobacco and were not allowed to smoke, Boggs told the committee.

He described the camp as built for 300 men and said that into this space 1,200 prisoners crowded before he left. The men starving to death and dug in swill barrels or ate potato peelings with relish, he testified.

Mandel Burke, base hospital number 46, said he saw a lieutenant colonel doing "kitchen police" in one of the prisons.
